EDUCATION

Under Graduation (2026)

NMIMS University

4 / 23 - Present,   **3.9 / 4 CGPA**
COURSE

B-Tech (Computer Science)

PERSONAL PROJECTS

Advanced Calculator
2021

- There are three other modes added to this calculator, namely - **Scientific Calculator , Audio Calculator and Voice Operated Calculator.**
- Scientific Calculator mode enables **functions like permutation, Combination, power, factorial etc.**
- Audio calculator **reads out** whatever calculation we enter as well as its answer.
- Voice operated Calculator enables user to use his/her own **voice to give commands** to calculator which then provides the answer.
- Tech Stack Used - **Python , Tkinter (GUI)**

Contact Book System
2022

- **Console application** which provides user the facility to **Store , display , search and handle contacts.**
- Contacts can only be manipulated by **Admins by using specific Id and Password.**
- **User friendly** navigation on application built using concept of **OOP (Object Oriented Programming) and File Handling.**
- Tech Stack Used - **C++**

SoleStore (E-Commerce Webiste)
2023

- Completely **responsive** shopping website which has **various pages** such as **About us, Contact us, Wishlist, Cart, User Page etc.**
- I developed complete **front end** part of the website (70% of the Website).
- It offers various features such as filter products ,sorting, review system etc.
- Tech Stack Used - **Html , CSS , JS , Bootstrap ,** Visual Studio , .NET ASP , SQL
